

# AKSHAT CHATURVEDI

Full Stack Developer

## WORK EXPERIENCE

2023-2026

Techsunset , Bengaluru **Full Stack Developer**

## PROJECTS

- ticketmaster.com**  
Online platform for booking concert, sports, movie, and event tickets worldwide.  
Next.js, React.js, Node.js, Express.js, MongoDB/PostgreSQL, Redis  
**What i worked:**  
Worked as a Full Stack Developer in a team. Built responsive frontend pages using React and Next.js, integrated APIs, handled authentication flow, and optimized UI performance. On backend, worked on REST APIs, database queries, booking-related modules, and server-side business logic.
- trip.com**  
Travel booking platform for flights, hotels, trains, and vacation packages.  
Next.js, React.js, Node.js, TypeScript, PostgreSQL  
**What i worked:**  
Worked on hotel and flight search pages, frontend API integration, reusable UI components, filters, and responsive layouts. On backend, contributed to API development, search-related endpoints, database handling, and performance optimization.
- wayfair.com**  
E-commerce platform for furniture, home decor, and interior products.  
Next.js, React.js, Node.js, Express.js, MongoDB  
**What i worked:**  
Built product listing pages, cart features, reusable frontend components, and improved website responsiveness. On backend, worked on product APIs, inventory-related logic, database operations, and API optimization.
- target.com**  
Retail shopping platform selling electronics, fashion, groceries, and daily essentials.  
Next.js, React.js, Node.js, Express.js, PostgreSQL  
**What i worked:**  
Worked on product pages, frontend state management, API integration, and responsive UI development. On backend, handled API integration, authentication modules, database queries, and business logic.
- att.com**  
Telecommunication platform providing mobile, internet, and fiber services.  
Next.js, React.js, Node.js, Express.js, Redis, PostgreSQL  
**What i worked:**  
Developed customer dashboard UI, authentication flows, reusable components, and frontend performance improvements. On backend, contributed to REST APIs, user session handling, database management, and service-related backend modules.
- novu.co**  
Developer platform for managing email, SMS, push, and in-app notifications.  
Next.js, React.js, TypeScript, Node.js, MongoDB  
**What i worked:**  
Worked on notification dashboard UI, settings pages, API integration, and reusable React components. On backend, developed notification-related APIs, handled database schemas, event processing, and backend integrations.
